Our much loved make-up and photographic session returns for another year to inspire you and improve your make-up and posing skills.

This easy 'follow-along' style session allows you plenty of time to understand what make-up products can do for you, how to apply them, and will boost your make-up confidence and know-how.

The second part of the session gets you in front of the camera where you can strike a pose and put your newly discovered make-up skills on display.

This year, each attendee will receive...

- ✓ Beauty & the Belly 'Magic of Make-up' guide (2017 edition)
- ✓ Integral USB memory stick (4gb)
